EDUCATION

Carleton University

BEng. Sustainable and Renewable Energy (Stream B) Mechanical (CO-OP)

Exp. April 2029

GPA: 3.7 / 4.0

SUMMARY

3 years of customer service and retail experience, and an additional **3 years of team leadership** through competitions and team projects. A quick learner no matter how complex the subject, backed by an extensive technical background.

SKILLS

Professional skills: Customer Support, Complaint & Issue Resolution, Team Leadership, Sales, Adaptability

Hardware: CAD (Fusion 360), 3D Printing, Soldering, Circuit Design, Prototyping, Arduino, Raspberry Pi, ESP32

Software: Python, C/C++, JavaScript, HTML/CSS, LaTeX, Git, VS Code, Microsoft 365

EXPERIENCE

Product Design & Development | Freelance

Nov. 2024 - Present

- Design and prototype electronic projects and **3D-printed** products in **Fusion 360**, taking each build from concept to finished piece.
- Create commissioned artwork and decorative pieces alongside functional parts, handling the full process from design to final product.
- Work directly with clients to turn their ideas into finished, made-to-order designs, delivering on spec and on time.

STEM Tutor | Freelance

Sep. 2024 - Aug. 2025

- Tutored **10+ students** in mathematics and computer science, improving average grades by **15–25%**.
- Built personalized study plans and adapted my communication style to each student to keep them motivated and engaged.

Robotics Team Lead

Sep. 2023 - Jun. 2024

- Managed **60+ members** and led an 8-person team to the finals at **VEX Robotics Nationals**.
- Coordinated multiple teams to design, build, and deliver projects under tight deadlines and with limited resources.
- Mentored** and trained junior members, guiding them through fundamentals and competition strategy.
- Developed a high-performance robot for **IEEE Robotics Competitions**, optimizing it for navigation and speed.

Sales Associate | Your Independent Grocer

Nov. 2021 - Aug. 2024

- Boosted store revenue by **33%** through proactive customer engagement and quick issue resolution.
- Trained and onboarded new employees on store operations, product knowledge, and customer service standards.
- Resolved customer complaints and product issues on the spot, balancing quick turnaround with long-term satisfaction.

PROJECTS

DeskClaw (Best Hardware Hack and Overall Finalist @ GenAI Genisis)

Mar. 2026

- An autonomous, AI-powered workshop assistant that helps engineers with hands-on physical tasks, bridging digital intelligence with real-world work.

Sleep Apnea Detector (2nd, QNX Challenge @ uOttHack)

Jan. 2026

- A wearable device that monitors respiration during sleep, streaming data to a companion app that flags irregularities associated with sleep apnea.

Volteux

Apr. 2026

- A platform that turns plain-English prompts into complete hardware projects, generating step-by-step build instructions, 3D model, circuit diagram, and a ready-to-buy parts list.

Spocket

May 2026

- An AI-powered study assistant that helps students navigate and understand the course notes / resources I developed.
